Question 1

Incorrect

Mark 0.00 out of 1.00

Flag question

Ecosystem degradation very often proceeds first through the violation of values, access and use rights and ultimately the rights to freedom, life and dignity of many disempowered communities.

- Select one:
- ☐ a. simple
 - ☒ b. complex ✖
 - ☐ c. compound-complex
 - ☐ d. compound

Your answer is incorrect.
The correct answer is: simple

Question 2

Incorrect

Mark 0.00 out of 1.00

Flag question

While sustainable consumption and production research and action mostly focuses on technological or behavioral change, the socio-ecological inequalities driving production-consumption systems built into the organization of our global political economy, remain largely overlooked.

- Select one:
- ☐ a. simple
 - ☐ b. complex
 - ☐ c. compound
 - ☒ d. compound-complex ✖

Your answer is incorrect.
The correct answer is: complex

Question 3

Incorrect

Mark 0.00 out of 1.00

Flag question

Recognizing this inherently political nature of producing and reproducing production-consumption systems, the structural political economy orientation brings an analysis of power into the center of inquiry.

- Select one:
- ☐ a. simple
 - ☐ b. compound
 - ☒ c. complex ✖
 - ☐ d. compound-complex

Your answer is incorrect.
The correct answer is: simple

Question 4

Correct

Mark 1.00 out of 1.00

Flag question

The centrality of power, inequality and injustice in these production-consumption systems necessitates a structural political economy orientation.

- Select one:
- ☐ a. compound
 - ☐ b. complex
 - ☐ c. compound-complex
 - ☒ d. simple ✔

Your answer is correct.
The correct answer is: simple

Question 5

Correct

Mark 1.00 out of 1.00

The critical task for developing a research and action agenda is therefore to analyze how such inequalities are produced and reproduced.

Select one:

1.00

[Flag question](#)

- ☒ a. complex ✓
- ☐ b. compound-complex
- ☐ c. compound
- ☐ d. simple

Your answer is correct.

The correct answer is: complex

Question 6

Incorrect

Mark 0.00 out of 1.00

[Flag question](#)

Inequality enables the more powerful and affluent global citizens to over-consume without internalizing the associated socio-ecological costs such as degradation, pollution, and loss of access to resources.

Select one:

- ☒ a. complex ✗
- ☐ b. compound-complex
- ☐ c. compound
- ☐ d. simple

Your answer is incorrect.

The correct answer is: simple

Question 7

Incorrect

Mark 0.00 out of 1.00

[Flag question](#)

Resource frontiers such as mining regions, new agricultural lands, hydropower sites and rainforests across the world illustrate the impacts of distant national and international priorities and policies as well as a deep history of colonial and post-colonial exploitation.

Select one:

- ☐ a. complex
- ☐ b. simple
- ☒ c. compound-complex ✗
- ☐ d. compound

Your answer is incorrect.

The correct answer is: simple

Question 8

Correct

Mark 1.00 out of 1.00

[Flag question](#)

Many prominent views on justice address the symptom of inequality but they do not consider the structures that produce them.

Select one:

- ☐ a. complex
- ☐ b. simple
- ☐ c. compound-complex
- ☒ d. compound ✓

Your answer is correct.

The correct answer is: compound

Question 9

Incorrect

Mark 0.00 out of 1.00

[Flag question](#)

Calculating both public and private debt, the International Monetary Fund estimated global debt in 2016 at \$164 trillion, which is about 225% of global GDP.

Select one:

- ☒ a. compound-complex ✗
- ☐ b. compound
- ☐ c. simple
- ☐ d. complex

Your answer is incorrect.

The correct answer is: complex

Question 10

Correct

Mark 1.00 out of 1.00

[Flag question](#)

Contemporary production-consumption systems have already breached planetary boundaries.

Select one:

- ☐ a. compound
- ☐ b. compound-complex
- ☐ c. complex
- ☒ d. simple ✓

☒ a. simple ✓

Your answer is correct.

The correct answer is: simple

Question 11

Incorrect

Mark 0.00 out of 1.00

[Flag question](#)

What a variety of political economy frameworks share is a focus on both economics and politics, rather than treating them as unrelated social realms.

Select one:

- ☒ a. compound-complex ✗
- ☐ b. compound
- ☐ c. complex
- ☐ d. simple

Your answer is incorrect.

The correct answer is: complex

Question 12

Correct

Mark 1.00 out of 1.00

[Flag question](#)

While aggregate population growth is a multiplier with non-linear impacts on environmental degradation, the linkages between poverty and environmental degradation are shown to be complex products of inequality, institutional arrangements, conflicts between and within groups and, crucially, environmental degradation that deepens poverty and we argue that these injustices and inequalities are at the very root of unsustainable production-consumption systems.

Select one:

- ☐ a. simple
- ☐ b. complex
- ☒ c. compound-complex ✓
- ☐ d. compound

Your answer is correct.

The correct answer is: compound-complex

Question 13

Correct

Mark 1.00 out of 1.00

[Flag question](#)

Environmental values like clean air and fresh water that are essential for a fulfilling life should not be commodified for the market.

Select one:

- ☐ a. compound
- ☐ b. simple
- ☒ c. complex ✓
- ☐ d. compound-complex

Your answer is correct.

The correct answer is: complex

Question 14

Incorrect

Mark 0.00 out of 1.00

[Flag question](#)

Assuming the position of production in the production-consumption dynamic as the locus of power, it is deemed that this highly skewed accrual of power is engendered by, and is generative of, inequality and, thus, injustice that weakens (or preempts) effective social interrogation of the scope and scale of production-consumptions systems.

Select one:

- ☐ a. compound
- ☐ b. complex
- ☒ c. compound-complex ✗
- ☐ d. simple

Your answer is incorrect.

The correct answer is: complex

Question 15

Correct

Mark 1.00 out of 1.00

[Flag question](#)

A wide range of factors, including access to resources and the socio-cultural construction of demand, shape production-consumption systems.

Select one:

- ☐ a. compound
- ☒ b. simple ✓
- ☐ c. complex
- ☐ d. compound-complex

Your answer is correct.

The correct answer is: simple
